We only use the pure essential oils and plant extracts.

A Facial Cream Application Techniques

Forehead

Apply in straight lines, starting with the hands on the centre of your forehead and working out to your ears in straight sweeping strokes, repeat 5 - 10 times.

Eyes

At the edge of the eyes (where the formation of crows feet can occur, massage the cream in circular motions). Never apply directly to the eye or the area immediately below the eye.

Entire face

Apply in upwards sweeping movements to the whole face. Start at the chin area and sweep upward towards the forehead. Always avoid applying in downward movements.
